

Installation Instructions for Bullet Light Mounts:

READ COMPLETELY BEFORE BEGINNING INSTALLATION

- 1) The light mounts are installed on top of the lower triple tree, and under the headlight bracket.
- 2) It is easiest to have the bullet lights already mounted to the brackets.
- 3) Remove both headlight mounting bolts
- 4) Raise the headlight up slightly.
- 5) Slide the signal mount tab underneath the headlight mount bracket.
- 6) Insert the headlight mount bolt through the headlight mount bracket, the signal mount, and the lower triple tree.
- 7) Install the nut under the lower triple tree and tighten.
- 8) There are installation pictures available at www.kewlmetal.com.
